“ Dear Bev, Karen and the beloved family of Ruby,

Your Mom truly was a gem, so kind, warm hearted, spirited, unforgettable. I am just learning of your Mom's homegoing, but from experience I can tell you this. Ruby Cain is alive and she LIVES BIG in the hearts, minds, and vivid memories of all who knew her. I count myself privileged to have known her.

“ You meant very much to our two daughters, both of whom you taught in first grade, Ruby.

“ When I moved into the neighborhood with my youngest son 5 years ago we were lucky to become Ruby's "across the street" neighbor. Before the movers had left my driveway she sent a letter to my door to welcome me and give me her phone number. Ruby is one of the reasons I have loved Canterbury. Along with her son Ken, I could have no better neighbors. I will miss her.
