“ *Several of us former Camp Staffers, are gathering tonight for the holidays on December 28, 2017 and wondered if Anita was still in Florida. Sadly we found her here.*

Anita was a vibrant high energy staff member at CYO Camp in the 1970s. Anita was head of the Horse Barn a favorite activity for every camper. Anita only made that event more memorable with her high energy and jovial nature. A rise to remember! A toast to you tonight Anita from your CYO sisters!

“ *I worked with Anita for years at DC Heath/Houghton Mifflin and we had many fun times together. She had great stories to tell and kept us all laughing and in good spirits.*

She was her own person and quite independent. She had a great heart and would do anything for you. When we were on a company bowling league together, she was pregnant with Josh and she would bowl her heart out. After he was born, he would do everything underhanded (holding his bottle and toys) and she decided he was going to be a pro bowler. :) I lost contact after she moved to Florida and I am so sorry for that. May she have eternal peace now. Vickie Mourer
