“ *Betty was my neighbor and a wonderful neighbor at that. We both had a love of animals and she will surely be missed. I am sure of where is is now and Heaven is a better place for sure than this Earth. But she will be missed here.*

“ *For Mrs. Mitchell, Thank you for making my visit's to Indianapolis feel as if I was at home. Your hospitality serves as a good example as to why it was so easy to become friends with your son Craig. I am sad that you are gone, and would have enjoyed living closer to you. You will not be forgotten. An absolute wonderful woman.*

“ *Well you ran well and finished strong kiddo. I am going to need your help finishing the Vermont Marathon next month since I have not trained for it at all so please push me through. I know you went to Vermont as a young woman so you will be able to find it, plus you have a good view from heaven. I will expect you to be waiting for me at the finish line just like you were in Bismark ND, New Orleans, and Oklahoma City. When I finished you were right there and said "Good Job". You did a fantastic job while you were here in your earthly body. I will see you in Vermont. Love you Mom. Tell everyone I said Hi and give them my love. Happy says Hi too and to tell you she is fine and Happy but misses you.*
