“ *Dear Cheryl*

I was devastated when I heard Brian had passed. Last summer he called me and we had a good talk. It was good to talk to him again, it had been a while. I have very good memories of Brian both as an engineer and as a person. He kept himself at high personal standards. Brian kept his cool in the very worst of the Gencorp days.

One of my memories that still brings a smile to my face is when he came into my office and blobbed himself in a chair and said " I realized I really don't know you as a person" and then started asking me personal questions. After about 20 minutes I had to kick him out of my office and get some work done. I brought this up to him when we talked and we both laughed. That's how I remember him - with a smile on his face and laughing.

I wish I could say something that would take away the pain, but no words can do that. Our thoughts and prayers are with Brian, you, and your family.

*Take care

“ Our thoughts and prayers go out to the Huffine family. We've been getting updates and have been thinking about your family since Brian became ill. Brian was always so nice to our family and especially our daughter Victoria. I know he coached her as an up and coming grade school athlete, and provided great leadership and a calming influence. Yet, very competitive and helped teach Victoria the meaning of winning. Brian and Cheryl are true pillars in their community and are looked up to by many. We miss seeing Holly and the rest of the Huffines and their extended family. May God give you all strength to get through this difficult time, but please know we are praying and thinking of you!

“ *To: A Great "Boiler Up" there watching over us now...*

We miss Brian very much. He was an excellent engineer, an awesome family man and a person of strong faith. His strength and perseverance has been an inspiration for everyone around him. I take away the "amount of life" that Brian experienced in the last 15 months--sporting events, weddings, graduation, grandchild, vacations.

Condolences have been coming in from Brian's colleagues in Indy, California, Arizona, Puerto Rico, Hungary and Germany. We all wish you prayers of support at this time.

“ *Dear Huffine Family,
I am so sorry to hear about Brian. I had the honor of working with Brian in 2006-2008. He was an excellent engineer, leader, and Christian man. He brought a sense of calm and wit to all projects. While, I will be out of town and unable to visit during calling hours to personally extend my sympathy, please know that you are in my thoughts and prayers.
May our Lord grant you and your family peace and allow you to see the collateral beauty of His creation in the coming seasons.
Grace & Peace,
