As the mother of David my heart goes out to all, my deepest condolences to Kayla's family and friends. I truly understand the anger in what you thought had happened and what really happened. I have not been on social media, as I know the emotions are so raw. I appreciate your heart felt words it means more than you may ever know. Please know that the comment that was sent after your second one I believe was due to the first post. I understand this may have been your only means of communication.

“ My boys were much older than you so we never had the chance to get really close. I keep going back to the memories of tickling you when you were little just to watch you skirm and listen to your giggle. You would act silly to get my attention and then watch for me from the corner of your eyes so that you could run before I could get to you. I will always cherish those memories!

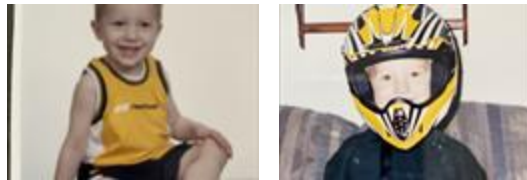

I regret that I didn't get to spend more time with you as a young man. We are all so heartbroken and will miss you forever. Give a big hug to memaw, papaw and your Aunt Martha for me. Love you always

“ I love you so much cousin. you'll never know how much I miss you. how much I'm gonna miss you. I have so many memories with you that I will never forget. so many memories that you were the only other person I could reminisce on them with and laugh at them with. This isn't how it was supposed to be. seeing this obituary and a second date to your birthday is still so shocking to me and I'll never get use to it. I'd do it all over again and I would if I could. I'm so grateful that I got to call you my cousin and make all the memories that we made. I hate that I now have to live in a world without my cousin. I hate that I have no other choice than to accept this new reality I live in. You left us all way too soon. I'll never forget you brother. There's always going to be an absence in my life where you used to be. I'll cherish our memories together forever brother, love you man.
