“ Doshia, how do I say goodbye to you, the woman next to my own mother, who has had the greatest influence on my life. You showed all of us girls by example how to become true ladies. As we watched you and mother raise our families we learned how to be good mothers and honest people. Again by example you demonstrated how to serve God and taught us that Jesus is our only way to heaven. Well there is no doubt that you are now in heaven with the Lord, happy and rejoicing. All of us left here on earth will miss you tremendously. But I know you'll be in heaven watching over us. I will never adore nor respect anyone more than I have you. I will always love you, Your Niece Geraldine

“ A mamaw like no other, so many memories, so much love.... she was and will forever be the matriarch of my family... she was a strong woman, she taught me strength by also showing that same strength to my beloved mother who I miss each and every single minute of each day... God is good and has chosen this special Easter to take my mamaw... I have such a heavy heart but I know she is where she belongs now.. I am at peace with this... I have left my Aunt "Tina" and all my cousins to cherish the memories of this most precious woman. It was jokingly said I was the number one grandchild only because I was born first but I am no more special than all my other cousins and siblings and she showered her love among us all.. Our family has received many condolences and I personally thank you, to all my family I love each one of you, always... mamaw I love you and miss you terribly, always Kimmy Kaye

“ *It's just like mom to pick the lords holiday to meet him!! She has gone home to be with lord. She has waited 86 years to do so. To our family, we are going to miss miss miss her. To friends and acquaintances as her last surviving child, I'm glad you had an opportunity to meet my amazing mother. As we all know she loved and tried to help everyone. A woman of many talents. From making our clothes, playing the guitar and banjo, working in many different restaurants, to doing hair for many of the sisters in church and always always working for The Lord. But staying positive was a way of life to her. I personally thank god for choosing her to be my Mother. She deserves the most beautiful wings heaven can produce!! Thank you for all the prayers and thoughts.*
