“ My name is David Hutton. My Grandmother and I lived on New Jersey street behind Babe, Herb and Keith when I was between 5 and 13. They always has a wonderful Christmas Party which I remember vividly! I had looked a couple of time but never found Keith to say hi. You will be missed old friend!

“ I met Keith when I was sitting on the steps of Treadwell Hall at Tech waiting for the lunch period to end and to go on to class. I relish our friendship during those years. I especially remember a day in early July when we set off those 4th of July fireworks that sprayed sparks into the air. We fired one out of a tube and my mother had a fit. How wonderful it was so many years later to discover the student in one of my classes I worked with at Shortridge was his daughter. You were a good friend. I know when my time comes, you and Lew will be there to greet me. - Jon Burroughs

“ *This is very sad news. I really like Keith for many reasons. He was a very capable engineer and a real asset. He was a true gentlemen and a pleasure to work with. He had a great sense of humor and somehow remained very positive in spite of his medical challenges. The world has lost a real good guy, .*
