“ Ceacee was and forever will be my "Other Mother". She was the strongest woman I have ever known, which was both a blessing and a curse, depending on which of her good Grace's you were in that day... She lived a full life n laughed right out loud every time I told her the good die young. I can just imagine before St Peter even got her 'checked in at the gates`, Terri dashed in n grabbed her by the hand n literally flew off with her showing her all the known n unknown universes n galaxies!! I will miss seeing and talking to her, but am comforted to know that for now, she is walking on sunshine!!! I will see you again Ceacee!! Until then....
